

The Business Summit on Healthcare A Framework for Reform Sponsorship Opportunities

December 8, 2009
8:30 a.m. to 4 p.m.
Crowne Plaza, Jamesburg, NJ

The outcome of reform will have a tremendous impact on all facets of New Jersey's health care system. Employers, employees, hospitals, nurses, insurance providers and various other health industries will experience changes no matter what final product comes out of Washington. New Jersey employers have a major stake in the outcome and it is important that they have the opportunity to be heard.

This conference is designed specifically for our state's business leaders to come together to begin analyzing these changes and how they are going to incorporate them into their company operations. You will hear from expert speakers with much experience in different health care areas.

Be a part of the beginning of a long-term discussion - and the formation of a business alliance - that will track reform and its impact on New Jersey, as well as advocate for further changes at the state level.
